

# Meth Testing Under Alert Level 3

The Meth Testing Industry Association (MTIANZ) met on Friday to discuss testing under Alert Level 3. <http://www.mtiaz.org.nz/covid-19-health-and-safety.html>

## Respect Peoples Bubble

There are 5 main areas we covered

- **Contact Tracing**
- **Wellness Declarations**
- **Social Distancing**
- **PPE**
- **Contactless Key Transfer**

### Contact Tracing

We need to be able to provide details of anyone we have had contact with.

Name, Address, Email and Mobile details will be taken for anyone we come in to contact with.

### Wellness Declaration

Have you or anyone in your bubble returned from overseas in the past 14 days?

Do you feel unwell or have any cold, flu or Covid 19 symptoms?

We will require hand washing with sanitiser.

### Social Distancing

Should a tenant, property manager or real estate agent be required to be at the property we require them to adhere to Social Distancing protocols. Ideally, they will remain in one room for the duration of the test. We will require a Wellness Declaration from anyone present.

## **PPE**

PPE is standard in our industry. We will take the usual approach of treating each property as if it is a lab plus view any individual present as if they have the corona virus.

## **Contactless Key Transfer**

In an ideal world it would be appreciated if a lockbox is on site. Should we be required to uplift keys from an office we request that they are left in an envelope for us. We will wipe the keys down with sanitised wipes prior to returning them. If we meet an agent, manager or tenant on site we would request that they adhere to social distancing guideline and complete a Wellness Declaration.

These guidelines have been developed so that we can do our job in a safe and respectful manner. Being able to do things this way hopefully makes it easier for you to do your job.

Should you have any questions on the above don't hesitate to contact me.
